

BASIC LINUX COMMENTS

```
Activities Terminal Mar 17 21:11
manishaa@localhost:~$ # BASIC LINUX COMMANDS - Part 1

# 1. Navigation
pwd          # Print working directory
ls           # List files and directories
ls -l        # List files with details
cd <dir>      # Change directory
cd ..        # Move to parent directory
cd ~         # Go to home directory

# 2. File Operations
touch <file> # Create an empty file
cp <src> <dest> # Copy file or directory
mv <src> <dest> # Move or rename file/directory
rm <file>      # Remove a file
rm -r <dir>    # Remove a directory recursively

manishaa@localhost:~$
```

```
Activities Terminal Mar 17 21:11
manishaa@localhost:~$ # BASIC LINUX COMMANDS - Part 2

# 3. File Viewing
cat <file>      # Display file content
less <file>     # View file content page by page
head <file>     # Show first 10 lines
tail <file>     # Show last 10 lines
tail -f <file>  # Monitor file content (real-time)

# 4. Search
find <path> -name <name> # Search files by name
grep <pattern> <file>   # Search pattern in file
grep -r <pattern> <dir> # Search pattern in all files in dir

manishaa@localhost:~$
```

```
Activities Terminal Mar 17 21:11
manishaa@localhost:~$ # BASIC LINUX COMMANDS - Part 3

# 5. Permissions
ls -l          # View file permissions
chmod <mode> <file> # Change file permissions
chown <user>:<group> <file> # Change file owner and group

# 6. Process Management
ps aux         # List all running processes
top            # Monitor processes in real-time
kill <PID>     # Terminate a process
kill -9 <PID>  # Force kill a process

# 7. Disk Usage
df -h          # Show disk space usage
du -sh <dir>   # Show directory size

manishaa@localhost:~$
```

```
Activities Terminal Mar 17 21:11
manishaa@localhost:~$ # BASIC LINUX COMMANDS - Part 4

# 8. System Information
uname -a       # System information
hostname       # Show or set system hostname
uptime        # Show how long system has been running
free -h       # Show memory usage

# 9. User Management
whoami         # Show current logged-in user
id             # Show user and group IDs
adduser <user> # Add a new user (requires sudo)
passwd <user>  # Set password for a user

# 10. Others
man <command>  # Show manual for a command
history        # Show command history
clear          # Clear terminal screen

manishaa@localhost:~$
```
